Position indicator
Galvanized steel

SKIOLD SLIDE for chain conveyor DK 190S, 250S, 320S, 400S

The SKIOLD slide is designed for SKIOLD DK type S chain conveyor. The slide is designed in a 600 mm or 800 mm version for mounting anywhere on the conveyor bottom and operated is by a 380 V 3 phase motor or pneumatically. Position switches for open and closed indication.

The SKIOLD slide is designed to operate without leaking or building up of material in grain, granulates and meal products. To minimize product carry over, a free hanging or pneumatically operated cleaning brush, is installed to clean the chain when it passes over the open slide.
