

**The VAL-CO Family
of products provides
all your
equipment needs.**

- Watering Systems
- Feed Bins, Fill Systems
- Feeders
- Nests
- Egg Collection Systems
- Cage Equipment
- Brooders & Heaters
- Evaporative Cooling
- Fans & Other Ventilation
- Whole House Controllers™
 - Flooring
 - Cremators
 - Alarms

Build a Complete Feeding System

VAL-CO® offers a wide variety of components lets you build a feeding system to meet your exact requirements.

Flexible Auger

Flexible Auger for Low Volume, Standard Volume, High Volume, as well as high Moisture (up to 25°) and pellet applications.

Feed Bins

Our bulk storage bins offer you the most efficient way to manage and protect your feed. Built with heavy gauge galvanized steel, VAL-CO Feed Bins are made to last.

Hoppers

Solid heavy gauge steel construction provides durability. Make sure your birds get the feed they need, with the assistance of VAL-CO hoppers.

Sentinel Feed Scale

The Sentinel Feed Scale from VAL-CO is a precision feed weighing system that allows growers to accurately monitor feed consumption and precisely manage their feeding program.

Call your local VAL-CO™ representative or distributor for more information on this and other fine quality products.

FUZE® ProLine Feeders

Your World Is Now Full of Options.

The FUZE® ProLine Feeding System from VAL-CO® offers you the ability to do something you've never been able to do before... build your own feeding system.

Features for all FUZE ProLine Feeding Systems:

- Three large feed windows for automatic and even pan flooding with feed
- Grill and pan form a large feed saving lip to minimize feed spillage and waste.
- Accurate feed level adjustments are quickly made from outside the pan
- Deep center feeding "V" bottom nestles down into the litter to promote easier chick access when brooding and overall feed savings
- Increased material thickness added to the pans in the "scratch" areas to improve pan life
- Anti-rake fins reduce billing and feed wastage
- Constructed with engineered polymer resins to resist wear and reduce the harboring of bacteria
- Two-piece top for ease of installation/replacement
- A pan/grill hinge and lock that securely locks pan to grill and provides for easy cleaning between flocks
- A mechanical switch control pan which provides high reliability and ease of maintenance
- An optional end control unit bird attracting light – LED lights that emit wavelengths known to attract birds

The LED light will attract your birds to the pans when it's feeding time.

Performance You Can Count On

Performance You Can Count On

The FUZE ProLine Feeders allow you to mix & match interchangeable components to "custom build" the feeder that is right for your particular live production needs.

- Choice of pan diameters: 13 *or* 14 inch diameters
- Choice of pan depth: shallow depth (2.4 in/61mm) *or* standard depth (3.0in/76mm)
- Choice of grill configurations: 13 spoke grills for 13 inch pans, and 14 spoke grills for 14 inch pans. Additionally there is a 5 spoke general purpose grill available for the 14 inch pans
- All grills are designed to provide generous spacing for today's breeds of birds; and easy in and out of the pan for brooding chicks
- Grills are designed to virtually eliminate trapping of chicks in the pan
- Integrated hinge & lock grill to pan attachment facilitates cleaning/disinfection

FUZE® ProLine

A wide variety of options lets you build a feeding system to meet your exact requirements.

The FUZE ProLine Family

13" low profile / 13 spoke grill

13" standard profile / 13 spoke grill

14" low profile / 14 spoke grill

14" standard profile / 14 spoke grill

14" low profile / 5 spoke general purpose grill

14" standard profile / 5 spoke general purpose grill
