

Handled With Maximum Care.

The Egg Collector from VAL-CO® is designed to handle your eggs with maximum care, providing you with very minimal checks and cracks. You can also vary the speed of the egg belt separate from the rod conveyor and elevator, giving you even more control over the safe handling of your eggs.

Some features of the VAL-CO Egg Collector:

- No timing device is needed.
- Eggs are capable of being transferred to a cross conveyor at varying heights.
- Gravity is used to transfer eggs to the cross conveyor.
- Maintenance and cleaning are easy.

The fingers gently transfer every egg with maximum care.
